

Hang¹⁾ing with Mini Cooper

The Mini Cooper is so cute, we just want to pinch its tires. A thoroughly modern version²⁾ of the original Mini, this agile³⁾ sport sedan⁴⁾ — which features a new multilink suspension⁵⁾ — is equally at home on winding roads and urban streets. A sprightly⁶⁾ 115-horsepower engine matches the free-revving spirit of the original, which made its name on the European racing circuit in the 1960s. The Mini, now manufactured by BMW, arrived in Europe earlier this year; it hits America next spring.

与爱车邂逅

爱车微型Cooper漂亮得简直让人想拧一它的轮胎。这种原始微型轿车的全新型号、机敏灵活的赛车——其特色是新的多重连接悬浮——在崎岖的公路和城市街道上开起来同样自如。一个轻便的115马力发动机能够与随意自由加速的原型号相媲美。后者于60年代在环欧洲赛事中一举成名。微型Cooper现在由宝马公司制造，今年早些时候在欧洲推出，将于明年春季进军美国。
